

19 March 2021

Dear Parents and Carers

Level 3 Certificate in Mathematical Studies (Core Maths) Assessments

In order to ensure that your son/daughter's final centre assessed grade is representative of their knowledge and understanding, all students will have the opportunity to complete a series of assessments covering the content taught on the above course. Each assessment will be completed within a timetabled maths lesson and assessments will be spaced to allow teaching and guided revision to continue.

Students are already being provided periodically with practice papers, and exam questions, to complete at home, for preparation, as would usually be the case at this time of year.

The assessments will take place as follows:

- Friday, 26 March: Paper 1.1 (students given notice previously)
- Friday, 23 April: Paper 1.2
- Wednesday, 5 May: Paper 1.3
- Friday, 14 May: Paper 2

Yours sincerely

S. E. Parkes
